WRIGHT AND BISHOP AT OYSTER BAY

Will Discuss Various Problems with the President.

GIFFORD PINCHOT THERE, TOO

Gen. Wright Intimates that He Will Mave Something to Say Regarding West Point Hazing After Conference-Haiti, Panama, and Other Questions to Be Considered.

Oysier Bay, N. Y., July 31.-Secretary of War Luke E. Wright and Joseph Bishop, secretary of the Isthmian Canal Commission, are guests to-night at Sagamore Hill, where they were called to a conference with the President concerning the affairs of the Canal Zone and the troubled Central American republics.

Secretary Wright and Mr. Bishop reached Oyster Bay on a late afternoon train. They will remain over night at Sagamore Hill. Mr. Bishop was accompanied by his wife, who is also a guest at the Hill. Another overnight guest is Chief Forester Gifford Pinchot, who comes to talk over with the President matters pertaining to the conservation of natural resources and especially forest preserva-

Secretary Wright came directly to Oyster Bay after a day with the New Jersey National Guard at Sea Girt. He looked tired, but happy. He said that he had come to go over a number of departmental matters with the President and to hear from Mr. Bishop of the progress of things in Panama.

Haiti to Be Considered.

Gen. Wright said that among other things the situation in Haiti would receive thorough consideration, and that he would also take up with the President the dismissal of the eight cadets who were lately expelled from West Point for hazing. When asked if he was not inclined to be lenient with the dismissed cadets, Secretary Wright hesitated and then said he would have more to say about that matter to-morrow.

Mr. Bishop is in the United States on two months' leave, which expires in a few days. He is to sail for Panama en Monday. When asked about reports that the people in Panama feared that the United States would ultimately take possession of that republic, Mr. Bishop

"Such reports," he said, "are mere wind—the howls of a defeated party. The people in Panama find it hard to understand that we are down there to build the canal, and for no other purpose. They seem to think that we went down there solely to boom their commerce. Incidentally, their commerce has increased several fold since we began work, but we are there just for one purpose, to dig the canal, and we are digging it."

Don't Plan Wider Zone. Mr. Bishop said also that some of the people in Panama had the idea that everybody in the Canal Zone should be fed by the United States commissary, but that such a thing was, of course, impossible. He derided as ridiculous the notion that Zone, and declared that such a thing had

Col. Coffin is being swamped with applications for leave for a day or two. There are many among the regulars and nilitiamen who wish to spend Saturday r Sunday, or both, in Washington. They do not particularly prefer Saturday and Sunday, but Col. Coffin issued strict or-ders when the guardsmen arrived that no man would be permitted to leave the post except on these two days, and then only y permission of the commanding officer. The militiamen had to get passes from their superior officers and have them ap-proved by Col. Coffin. Washington will indoubtedly be crowded on both days,

Five men of Company K, First Regiment, had to leave camp this evening on urgent call from Washington of a business nature. Col. Coffin did not permit them to leave until he had received requests from their employers.
